TEMPE CENTER FOR THE ARTS

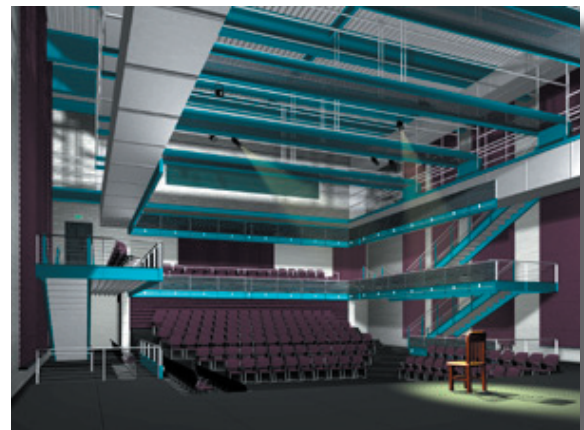

*Lakeside*

*Lobby*

The connecting thread is the Center itself – a magnificent example of bold, contemporary design. The center will boast a reflecting pool and stunning main entry and lobby features designed by nationally recognized artists. The TCA will be surrounded by a public park, walking paths and parking in abundance.

*Studio*

When it all comes together, the Tempe Center for the Arts will be a cultural hub where the arts come alive. The TCA will present art that is interconnected from medium to medium - from the gallery to the theater; exhibits often will follow consistent theme lines. On any given day, a visitor might attend a dance premier, a wedding, a children's theatre production or even an artist's debut exhibit.
